

7 July 1981

MEMORANDUM FOR THE RECORD

SUBJECT : Interchange Program

Ms. Tracey Spencer, OPM, phoned with another question regarding the pending Executive Order on the Interchange Program. She said although the point had never been brought up specifically before, it had never been their intent to include SIS employees in this agreement. Therefore, she asked whether SIS employees were hired by the Agency under the same authority as other personnel. If so, they will include a qualifying statement in the Executive Order excluding SIS personnel. She was told that SIS personnel are hired under the same authority, however, procedures for selection and appointment of SIS personnel are different and certain of these individuals are appointed on reserve (temporary) appointments for the duration of the term of the current DCI unless sooner terminated. These factors will be taken into consideration in her drafting of the pending Executive Order.
